- Rugged construction holds cover in place
- Ask us about custom sizes

Dimensions: 14"x14"x10" / Weight: 9.975 lbs. per cover

Assembly Instructions

1. Fold the sides of the box up and together, taping the outside vertical seam with foil tape
2. Dry fit KornerBox over the fixture and mark cut-outs needed for spreader bars and wires
3. Use a jab saw or knife to make necessary cut-outs
4. Drop KornerBox over the fixture and seal to drywall below and joists with approved 1 part foam
